Dear Sir:

Under separate cover you will shortly receive the following equipment for use on Task Order 8 of the current antenna program:

- 2 each Video Amplifiers, Type VA-9, Serial Nos. 779 and 789
- 2 each VA-9 schematic diagrams
- 2 each IPC connectors
- 2 each Monobloc Type M4P connectors

No batteries are supplied with the amplifiers. A total of six volts is required for proper operation, using either mercury batteries or dry cells, as indicated on the schematic diagrams.

The amplifiers and schematic wiring diagrams are non-expendable government-loaned equipment and must be returned at the termination of the subject task. The connectors are considered expendable if necessary. Please sign and return one copy of the enclosed receipt.

Very truly yours,

25X1
